

Evologic is a fast growing, innovative Spin-Off of the Technical University of Vienna, working in the field of industrial bioprocess development. Development and implementation of cutting-edge technologies are the basis for fast development cycles for high-productivity production processes. In close collaboration with academic partners, we are developing and optimizing bioprocesses for third parties as well as for in-house products.

**For our facilities located in Vienna, we are looking for a skilled and motivated:**

## **Lab-technician Fermentation (m/f)**

In the field of process development and up-scaling from laboratory to industrial scale, we are looking for a new team member. As a self-motivated, team-oriented person you will work independently and result-oriented. Your communication skills will help you in collaborating with our team members as well as with our freelancers and academic research institutions. As a scientifically enthusiastic person, you are actively seeking feedback for your ideas and concepts to reach the best possible solution. We offer interesting personal and professional development opportunities in an innovative environment with flat hierarchies and fast decision-making.

### Responsibilities

- Fermentations and responsibility for reactor units
- Support in process characterization/ development on laboratory scale and technical scale.
- Support in the planning and execution of validations of manufacturing processes/process steps.
- Troubleshooting and communication with external service providers.
- Responsibility in laboratory organization (material flow, ordering, sterilization, etc.)

### Requirements

- Practical process engineering or biotechnological training (e.g. HTL/Bacc.) or similar.
- Experience in sterile working techniques is obligatory
- Practical fermentation experience (apart from courses) is of advantage
- Independent and accurate work as well as social competence and team skills.

We are looking forward to your application via [office@evologic-technologies.com](mailto:office@evologic-technologies.com)

*For legal reasons, we are obliged to point out that the salary under the collective agreement for this position is € 31,000 gross p.a. The willingness to overpay according to your qualification/experience profile is given.*
